

HARDWARE - AS

Auto Stop

The Auto Stop descender from SAFERIGHT is ideal for rope rescue and rope access applications for use with 11 mm and 13 mm kernmantle rope. Featuring a "dead man's handle" breaking mechanism, the Auto Stop has automatic lock off capabilities and also offers the user smooth start and stops eliminating shock loads to the descender or rope and ensuring the ropes integrity is not damaged in any way.

Key Features

- Fail safe "dead man's handle" breaking mechanism
- Automatic lock off
- Will not damage integrity of rope
- Two (2) person safe working load (400 kg)
- For use with 11 mm or 13 mm kernmantle rope
- Can be attached anywhere along rope's length
