

RESCUE KITS, TEMPORARY LIFE LINES & HEIGHT SAFETY KITS - AT

Alltrack Casualty Haulage

A light weight versatile 6:1 haulage system, the Alltrack is designed specifically for transferring a casualty's weight from a loaded line or ledge onto the rescuers line without the need to cut through or damage existing equipment. It is an essential piece of equipment for all mines and tower rescue and emergency response personnel. The Alltrack should always be used in conjunction with a secondary back up device to ensure two point attachment at all times.
