

FULL BODY HARNESSES - H11Q

As per the H11, with quick release buckles

The H11Q is a light and comfortable full body harness suitable for fall arrest, confined space entry/retrieval and rescuen and has quick release buckles as a standard feature. The H11Q series features Saferight's unique rear D extension strap and fall indicator as standard, which enables the user to visually check the rear attachment point for secure lanyard connection and evidence of a previous fall. Ideal for regular use in many applications.
