

FULL BODY HARNESSSES - HP11RE

As per the HP11, with non-conductive rear attachment point tool straps and reflective tape

The HP11RE harness has been designed specifically for the electricity industry. Made from 100% Proflex webbing for comfort and prevention of fatigue, it is an all-round harness suitable for fall arrest, particularly work positioning, with in-built back support and a bum strap. The harness also has reflective tape on the belt for high visibility and supports tower rescue with the front belay loops.
