

Mine Rescue Harness – H12MR

The Mine Rescue Harness is the first of a new range of purpose made harnesses developed specifically with Mine Rescue in mind. It features a sewn-in chest ascender strap and includes a Petzl croll. Another key feature is ventilated fabric that offers the wearer greater comfort when wearing the harness for extended periods, while in an actual rescue situation or competing in a mine Rescue Competition.

This harness is manufactured in excess of the requirement of AS/NZS 1891.1.

Although developed for Mine Rescue, this harness is suitable for Tower Climbers, Riggers and Rescue Services.

Key Features
