

Inertia Reels - IR

Saferight markets and distributes the IKAR range of inertia reels in Australasia. The reels are renowned worldwide for their robust design and engineering excellence.

Inertia reels are ideal for use in any application where the anchor point is high above the head, and the user has to move within a 30 degree cone of the anchor point. For example, loading bays, aircraft hangars, warehousing and construction. IKAR reels come in a range of lengths in cable, webbing and aluminium casing.

Key Features

- Range in lengths from 3m to 42m
- Cable or webbing
- Plastic or metal casing
- Locks off immediately in the event of a fall, reducing forces generated as free fall distance is reduced.
