

# CONFINED SPACE ENTRY

**NATIONALLY RECOGNISED COMPETENCIES**  
RIIOHS202A - Enter and Work in Confined Spaces  
MSAPMPER205C - Enter Confined Space  
MSAPMPER200C - Work in Accordance with an Issued Permit

## OVERVIEW

This course is aimed at ensuring the health and safety of participants who have to undertake work activities within a confined space as defined by AS 2865 : 2009.

It provides participants with information on their responsibilities with regard to Duty of Care, the Occupational Health and Safety Act and the Mine Safety and Inspection Act. It provides a guide to planning and entering confined spaces for employees and contractors by utilising the risk assessment process to identify hazards and applying the appropriate controls using the Hierarchy of Control. It informs participants of the requirements in rescue, training, isolation, ventilation, atmospheric testing, standby duties and entry permits to the confined space.

This course comprises an equal theory-practical component ensuring all participants actively participate in confined space entries.

SAFERIGHT is a Registered Training Organisation (Provider Number 5722) and offers a range of courses in industrial safety. For more information on courses, please call our Training Department on 1800 352 335 or email [training@saferight.com.au](mailto:training@saferight.com.au).

## KEY OUTCOMES

### DEFINITIONS:

- Confined Space Hazards and Controls
- Standby Person (Roles and Responsibilities)
- Respiratory Protection
- Atmospheric Monitoring Requirements
- Risk Assessments and Hierarchy of Control
- Ventilation
- Checks to be Performed
- Permits
- Lifelines and Harnesses
- Safe Work Procedures
- Entry Permits
- Rescue Procedures
